SPPCN provides a competitive benefit plan

POSITION SUMMARY

The role of the Sherwood Park – Strathcona County PCN Family Practice Nurse is to provide comprehensive nursing services to the patient population of a family practice clinic within the Network. The nurse will work collaboratively with patients, family physicians and other team members to develop and implement care plans and provide follow-up with patients. The nurse will assess, manage and support patients to provide comprehensive care, education and guidance to patients with a variety of clinical conditions. Duties will vary depending on the clinic and patient population.

KEY RESPONSIBILITIES

Include, but are not limited to the following:

General

Full LPN scope of practice:

- nursing skills/tasks may include injections, dressing changes, ear flushes, Pap tests, diabetes education
- Work collaboratively within a family practice environment to enhance the delivery of primary care services:
 - Identify needs and set priorities with the patient, physician and other team members
- Assist in developing and implementing patient self-management programs:
- Conduct assessments, initiate and implement management strategies and provide appropriate follow-up
- Provide relevant patient education to prevent and manage clinical conditions
- Assist patients to navigate through the health system:
 - Communicate with patients to determine the next appropriate health services required, based on presenting concerns and test results
 - Provide direction in accessing appropriate local and regional health programs
- Assist in the development of health screening programs:
 - Implement strategies for improving the quality and provision of care for the practice population
 - Initiate appropriate investigations
- Ensure the maintenance of accurate records in line with practice policy
- Participate in evaluation of the clinic and its services
- Other duties as assigned to maintain seamless patient flow throughout office visits
 - Provide assistance to physicians as required and appropriate to the position

EDUCATION & EXPERIENCE

- Licensed Practical Nurse diploma
- Five years or more of related nursing experience,
- Current CLPNA Registration, CPR, and BCLS,
- Experience working in a team setting with other health professionals,
- Experience in establishing protocols for program startups, especially developing plans and priorities when workload varies.
- Experience in developing plans and priorities with variable workloads
- Experience working in a team setting with other health professionals

SKILLS & ABILITIES

- Expert knowledge of nursing processes and practices, including intervention strategies and therapies
- Strong, effective written and oral communication skills, high level of perceptiveness
